

Board of Health Minutes

February 19, 2019

The meeting opened at 7:15 p.m. with Ms. Amodei and Ms. Moeller present. Mr. Parkin was absent.

19 Lowell Street

The Board reviewed a plan for a replacement system for a 3 bedroom existing home. The home is vacant and may be torn down. The plan was approved with the requirement that the location of the existing system be shownn on the asbuilt plan. The Board signed the septic permit.

56 Chapman Street

The Board approved a septic plan and signed the septic permit for new construction with the requirement that the trenches for the reserve area are to be shown on the asbuilt plan.

136 Pleasant Street

The Board would like our agent; Ms. Braley to write a strong letter to the owners of the property citing the law about doing a Title 5 inspection on the existing system. The property has changed hands and the Board of Health has not received a Title 5 report. They would like the letter to contain a deadline for submission. They would also like her to schedule a walk-through of the property so she can count bedrooms in the home since it appears that there is inside work going on there. All septic systems are designed on the number of bedrooms in a home. Copies of the letter shall be sent to the Board of Health and the Building Inspector.

The meeting adjourned at 8:00 p.m.
