1 WELCOME & INTRODUCTION

What is the Town hoping to achieve with this project? What has happened so far?

2 SURVEY RESULTS

More than 300 Dunstable residents took the Dunstable Town Center visioning survey. We will share the analyzed results and invite questions and discussion about key findings.

3 VISION AND GOALS FOR TOWN CENTER

In groups, we will review a draft vision statement and goals that have emerged from our August meeting and the survey.

4 BARRIERS / CHALLENGES TO ADDRESS

Based on the draft goals, we will explore barriers – and how to address them – to achieving the vision. This may include land use recommendations, open space and public realm amenities, and roadway safety improvements.
