

BOARD OF SELECTMEN'S MEETING

Town of Dunstable

JUNE 11, 2024
DUNSTABLE TOWN HALL
511 Main Street | Dunstable, MA

**NOTICE OF A PUBLIC
MEETING POSTED IN
ACCORDANCE WITH THE
PROVISIONS OF MGL 30A
§18 – 25**

Note: All topic placement & times are estimated and may vary *tremendously* from projections

[illegible]

(Note: This listing of matters reflects those reasonably anticipated by the chair which may be discussed at the meeting. Not all items listed may in fact be discussed and other items not listed may also be brought up for discussion to the extent permitted by law.)

PFAS COST RECOVERY PROGRAM

Town of Dunstable

JUNE 11, 2024
DUNSTABLE TOWN HALL
511 Main Street | Dunstable, MA

WORKING TO FIGHT ENVIRONMENTAL CONTAMINATION

Cost Recovery Program and 3M, DuPont, Tyco Settlements

PFAS (The Everywhere and Forever Chemicals)

Perfluoroalkyl and Polyfluoroalkyl Substances are a group of man-made chemicals that include PFOA, PFOS, GenX, and many others.

Manufacturers

PFOA/PFOS

3M/Dyneon

Asahi Glass

Arkema

Ciba

Clariant

Daikin

Dupont

Solvay

AFFF

3M

Ansul

Amerex

Buckeye

Chemguard

Kidde

National Foam

Tyco

PFOS was solely produced by 3M in the U.S.

Primary Sources of Water Contamination

- Manufacturing
- Landfills
- Bio Solids
- AFFF Use
 - Airports | Military Bases | Firefighting | Firefighting Academies

Exposure Increases the Risk for:

- | | | |
|---------------------|---------------------|----------------------|
| • Kidney Cancer | • Blood Cancers | • Prostate Cancer |
| • Preeclampsia | • Liver Cancer | • Thyroid Cancer |
| • Testicular Cancer | • Pancreatic Cancer | • Breast Cancer |
| • Bladder Cancer | • Thyroid Disease | • Ulcerative Colitis |

Regulation Landscape

On April 10, 2024, EPA announced the final National Primary Drinking Water Regulation (NPDWR) for six PFAS.

Compound	Final MCLG	Final MCL (enforceable levels)
PFOA	Zero	4 ppt (also expressed as ng/L)
PFOS	Zero	4 ppt
PFHxS	10 ppt	10 ppt
PFNA	10 ppt	10 ppt
HFPO-DA (GenX Chemicals)	10 ppt	10 ppt
Combinations of two or more of PFHxS, PFNA, HFPO-DA, and PFBS	1 (unitless) Hazard Index	1 (unitless) Hazard Index

Regulation Landscape Cont'd

In late April 2024, the Environmental Protection Agency's ("EPA") announced their decision to classify Perfluorooctanoic Acid ("PFOA") and Perfluorooctane Sulfonate ("PFOS") as hazardous substances under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"). This landmark ruling marks a pivotal advancement for public health and environmental protection.

Current Litigation Settlements

3M COMPANY	DUPONT	TYCO
Settlement Amount: \$12.5 Billion	Settlement Amount: \$1.185 Billion	Settlement Amount: \$750 Million
Settlement Date: June 22, 2023	Settlement Date: June 30, 2023	Settlement Date: April 12, 2024
Court Approval Date: February 9, 2024	Court Approval Date: April 2, 2024	Court Approval Date: Pending
For PWSs' contamination of drinking water supplies	For PWSs' contamination of drinking water supplies	For PWSs with PFAS detections as of May 15, 2024.

settled on courthouse steps.

Motion Practice

Defeating multiple summary
judgment motions

4 Years Litigation

Arguments regarding the admissibility
of thousand of pages

2.5 Years Negotiations

Overseen by the court-appointed
mediator Judge Layn Phillips

Putting the Settlements into Context

- The 3M settlement alone is the largest drinking water contamination settlement in U.S. history and represents nearly a quarter (22%) of 3M's total value.
- The settlements only release water supplier claims for treatment and remediation costs.
- The settlements do not cover or release:
 1. Claims against 3M, DuPont or Tyco for anything other than water treatment/remediation costs
 2. Water supplier claims asserted against any other defendant in the MDL
 3. Claims asserted against 3M, DuPont and Tyco by non-water supplier plaintiffs

Calculate PFAS Score (for each impacted source)

Calculate a PFAS Score
for each impacted
water source

Select the higher of:
(max PFOA level + max PFOS level)

OR

(Max PFOA + Max PFOS) averaged with
 $\sqrt{\text{Max of any other PFAS Listed on Claims Form}}$

Calculate Flow Rate (for each impacted source)

Calculate Adjusted Flow
Rate For Each Impacted
Water Source

Add 3 highest annual average flow rates 2013-2022

$$\text{Average Flow Rate} = \frac{\text{Rate 1} + \text{Rate 2} + \text{Rate 3}}{3}$$

$$\text{Number you want} = \frac{\text{Average flow rate} + \text{Max Flow}}{2}$$

Next Steps

- Ongoing Kidde Fenwal Bankruptcy Proceedings
- Ongoing settlement and court proceeding for 14 other companies
- Submission of public water system settlement claims forms (DEADLINES)
 - Regardless of previous testing, public water systems must test all their water sources under UCMR 5

Treatment

- Activated Carbon
 - Granulated or Powdered
- Ion Exchange Resin (IX)
 - Reverse Osmosis
 - RO and Nanofiltration (NF)
- Advanced Oxidation
 - Ozone
 - Catalyzed Hydrogen Peroxide (CHP)

Remediation

- Pump and Treat
- Excavation and Treatment
- Excavation and Disposal
- Stabilization
 - Activated Carbon and Aluminum Hydroxide

What Sets Us Apart

Nationwide Representation

- Experience Managing Large, Complex Litigation
- Dedicated Environmental Department
- Regular Communication
- Conflict Free, Work with Local Counsel
- Investigative Resources
- Customized Approach
- Personalized Attention
- Public Relations

Why do you need Legal Representation?

- Complex processes
- Short timeframes and upcoming deadlines
- AFFF MDL litigation continues against other Defendants regarding drinking water claims.
- AFFF MDL litigation continues against all Defendants for landfills; airports, fire districts and personal injury and property damage claims.
- Maximize your compensation as you will receive legal guidance during the claim forms submission process.

**PFAS COST RECOVERY PROGRAM URGENT NOTICE
3M, DUPONT, AND TYCO FIRE PRODUCTS
SETTLEMENTS ANNOUNCED
CLAIM DEADLINES FOR \$14.5 BILLION DOLLARS
AVAILABLE FOR WATER REMEDIATION
EPA MANDATE TO BE ENFORCED**

As you know, on April 10th, the Environmental Protection Agency established the first ever national legally enforceable drinking water standard for PFOA and PFAS at a maximum contaminate level (MCL) of 4.0 parts per trillion (ppt). Utilities in excess of this figure will be required to remediate.

This action makes it incredibly important for water utilities to participate in the following settlements.

SETTLEMENTS:

Napoli Shkolnik previously announced Court approval of both the \$12.5 billion settlement with 3M Company and \$1.185 billion settlement with DuPont in the ongoing Court case over the contamination of drinking water with toxic per- and polyfluoroalkyl substances (“PFAS”).

We are now proud to announce an additional proposed settlement of \$750 million with TYCO Fire Products.

These settlements are available to water utilities with any level of detects.

URGENT TIME SENSITIVITY – DEADLINES:

3M: The deadline for filing a claim in the 3M settlement is June 30 , 2024,

DuPont: The deadline for filing a claim into the DuPont settlement is June 17, 2024.

TYCO: The deadline to perform at least baseline testing of a water district's water sources is MAY 15TH. (Note: All Massachusetts utilities have already been tested and will automatically comply with this date.) The deadline for filing a claim will be 90 days after Judge Gergel's final ruling. We will keep you updated.

CONTACT:

Please contact Hank Naughton, Managing Partner for the PFAS Cost Recovery Program at (978) 852-3643 or hnaughton@napolilaw.com.

Sign up here: <https://www.napolilaw.com/nrwa-pfas>

(Note: If your utility has no detects at this time but has baseline testing, a claim can be made as a placeholder for remediation of future detects.)

PFAS Legal Team

Cover the Cost to Treat Water Contamination by Making Polluters Pay

We assembled the most experienced group of PFAS and water contamination litigators to fight for water providers around the country. We collectively represent states, municipalities, water suppliers, and airports of all sizes in cases against the manufacturers responsible for PFAS contamination in drinking water supplies.

Our PFAS legal team is comprised of five law firms, each with years of experience in its own focus area, including:

20+ years of water litigation experience | The most PFAS litigation experience in the country | Exclusive access to documents demonstrating the polluters' egregious conduct | Extensive litigation experience against large corporations

SL Environmental Law Group PC focuses exclusively on complex water contamination litigation and has 20+ years of experience working with public and private water utilities, cities and state governments. Since 2003, SL has represented 150+ clients in contamination cases that involve PFAS, 1,2,3-TCP, Perchlorate and MTBE, resulting in \$1.2+B recovered in settlements and trials. Members of the firm hold positions on the Sovereign Committee, the Water Provider Committee, and Discovery Committee in the AFFF multidistrict litigation in the District of South Carolina ("AFFF MDL"), giving SL an upper hand in the MDL proceeding.

Taft/

Robert Bilott, partner at from **Taft, Stettinius & Hollister LLP** filed the first case in the country that resulted in the discovery and public disclosure of PFOA in drinking water supplies for approximately 70,000 people in West Virginia and Ohio attributable to DuPont. Mr. Bilott helped negotiate and obtain a class settlement in 2004 that secured benefits for the class valued in excess of \$300 million, including water filtration systems for impacted private and public water supplies in West Virginia and Ohio, blood testing of 69,000 people, and eventual medical monitoring and establishment of general causation findings for personal injury claims. With nearly 25 years' experience fighting against some of the biggest chemical companies, Mr. Bilott plays a vital role in our litigation team.

LAW OFFICE OF KEVIN MADONNA, PLLC

Law Office of Kevin Madonna, PLLC specializes in complex environmental and consumer litigation matters in federal and state courts throughout the United States. Kevin Madonna has served in leadership roles for Waterkeeper Alliance, which operates a network of over 300 water protection programs around the world. He has successfully recovered millions for the treatment of environmental contamination in communities in Florida and Michigan, and received a jury verdict of \$396 million against DuPont for poisoning a West Virginia community. Mr. Madonna is a founding member of our team of legal specialists and works diligently on our ongoing litigation in the MDL.

LEVIN PAPANTONIO RAFFERTY

Levin, Papantonio, Rafferty, Proctor, Buchanan, O'Brien & Mougey, P.A. is recognized as one of the top litigation firms in the country. Its team of over thirty attorneys have been litigating personal injury and products liability cases since its inception in 1955. Members of the firm have served on Plaintiffs' Steering Committees and/or Plaintiffs' Executive Committees in over twenty MDLs across the nation. The firm focuses on all aspects of trial preparation for our PFAS cases including working up expert reports, organizing discovery, taking depositions, organizing trial exhibits and drafting and defending motions in limine and Daubert motions.

Douglas & London PC has over two decades of litigation experience. In prosecuting cases, the firm's co-founding partners have served in leadership roles and as trial counsel in some of the largest national MDLs in the country. In the C-8 MDL, Gary Douglas served as co-lead trial counsel in the first two trial cases and lead counsel in the third case, securing a total combined award of more than \$20 million for the three plaintiffs. Michael London served as the lead negotiator for settlement in the C-8 litigation, successfully negotiating a \$670.7 million settlement with DuPont. Mr. Douglas and Mr. London currently serve on the Plaintiffs Executive Committee in the AFFF MDL.

Let's talk about your options:  slenvironment.com/pfas |  415.348.8300

Cover the Cost to Treat Water Contamination by Making Polluters Pay

We help water systems provide safe and affordable water to the communities they serve

Partnering with Water Suppliers to Hold Polluters Accountable

Everyone deserves safe drinking water. Unfortunately, the prevalence of man-made, toxic chemicals that are increasingly found in water supplies puts a strain on water suppliers who are left to shoulder the responsibility for clean up.

SL Environmental Law Group helps states, municipalities, water districts, water companies, and other businesses hold the companies that manufactured these products accountable through legal action. Since 2003 SL has been solely focused on water contamination litigation and has helped **150+ clients, resulting in over \$1.2 billion recovered in settlements and trials** which would otherwise be shouldered by water systems and taxpayers.

“We’ve certainly recommended SL to others for the same reasons we chose them. The speed at which we saw results, in this case a substantial settlement from the defendant, was unlike anything I’ve seen before.”

- Denise Kruger, Senior Vice President, Golden State Water Company

What Working With Our Team Means For Water Systems

- **Water litigation experience:** we have 20+ years of experience exclusively representing water suppliers in contamination cases, including 1,2,3-TCP, MTBE, p-CBSA, PCE, PCBs, and PFAS. The polluters we aim to hold accountable know we are not afraid to go to trial.
- **No upfront costs or retainer:** we provide our services on a contingency fee basis. This allows water systems to retain us without any upfront or ongoing fees or litigation costs.
- **Less work for water systems:** our water litigation experience allows us to be time efficient both preparing for and during the lawsuit, reducing the burden on the water system.
- **Committed to our clients’ cause:** we have the resources and experience to fight through trial and appeal, for as long as it takes to get the right results for you.
- **Recovering costs while protecting the community:** we go after the big corporations that manufactured the contaminants, protecting both ratepayers and your local community.

How We Help Clients *(just a few examples)*

Litigation experience

A \$48 million jury award to the City of Pomona, CA to clean up groundwater supplies contaminated with perchlorate.

Represented the State of New Hampshire in a record-breaking lawsuit against more than two dozen petroleum companies for MTBE groundwater contamination. Settlements with some defendants provided \$130M+ to the State for clean-up. A jury found against the non-settling defendant ExxonMobil, awarding the State damages for more than \$816M, of which ExxonMobil was responsible for \$236M+.

Regional efforts

A lawsuit filed on behalf of the Water Replenishment District of California (WRD) against manufacturers of aqueous film forming foams (AFFF) over PFAS contamination. The contamination impacts many wells in WRD’s service area, which includes 43 cities over a 420-square-mile area of southern Los Angeles County.

PFAS experience

PFAS Legal Team: SL is one of five law firms who combined their experience to protect water providers against PFAS polluters. Our PFAS team has 20+ years of experience in water litigation, the only lawyers in the country who have tried multiple PFOA cases successfully, and exclusive access to documents demonstrating manufacturers’ knowledge and egregious conduct.

Some of our team’s work has been chronicled in the 2019 film “Dark Waters,” and the 2018 documentary “The Devil We Know”.

DIRECTOR OF SENIOR SERVICES

Town of Dunstable

JUNE 11, 2024
DUNSTABLE TOWN HALL
511 Main Street | Dunstable, MA

Town of Dunstable
Senior Services and Recreation Program Director
Part-time

The **Town of Dunstable** has an opening for a Senior Services and Recreation Program Director. This is a part-time position, budgeted for 17 hours per week. The Senior Services and Recreation Program Director is responsible for administering, developing, maintaining, and scheduling senior and recreational programs, services, and events in the Town of Dunstable.

Job Duties:

Duties include supervisory, office management, and administrative functions, clerical tasks, and direct involvement in local, state, and federal programs for the elderly.

- Works collaboratively with the Council on Aging Board and Parks and Recreation Commission to set meeting agendas, post meeting notices, and submit approved meeting minutes in a timely manner;
- Attends monthly Council on Aging Board and Parks and Recreation Commission meetings and staff meetings;
- Works with Council on Aging Board and Parks and Recreation Commission to prepare Annual Town Report and Budget;
- Perform the administrative functions for the Senior Services Department and Parks and Recreation Commission;
- Submit required state, regional, and federal reports, including the preparation of grant applications, grant reporting, and grant administration;
- Assists seniors in facilitating, referring, and filing applications for assistance programs or information, including fuel assistance and meals on wheels;
- Maintains attendance records for outreach programs, classes, and activities;
- Organizes weekly lunch program for seniors including the coordination of caterers and meal preparation;
- Arrange and schedule transportation services for medical appointments and other critical needs;
- Recruit, train, support, and supervise volunteers, employees, and vendors for various senior activities and recreational activities for all ages, and donations of medical equipment (crutches, walkers, etc.) for disabled seniors in the community;
- Utilize multiple communication avenues (website, paper, phone calls, emails, social media) to keep seniors and the community aware of program opportunities;
- Develop, plan and organize the development, implementation and operation of fee-based recreation programs; evaluate the effectiveness and desirability of recreation programs;
- Introduce new innovative programs; calculate and ensure that sufficient program fee revenues are available to offset operating expenses;
- Evaluate existing recreational assets; work with the Recreation Commission in recommending and developing new recreational assets to include fields, structures and facilities that meet the recreational needs of the Town;
- Schedule instructors, negotiate fees, establish programs, and set program dates;

advertise and publish notices for recreational and special events; handle public relations matters, program announcements and promotion.

- Ensure that brochures, schedules, and flyers are designed, produced and delivered in a timely and cost-effective manner;
- Other duties as may be required.

Skills and Qualifications

- Ability to communicate and interact with the general public, town departments, elected officials, and Dunstable's seniors in a professional manner
- Strong budgeting skills and ability to manage and track expenditures
- Proficient with Microsoft Office Suite including Word, Outlook, Excel, and PowerPoint
- Valid Massachusetts Driver's License
- Knowledge of the Town of Dunstable, Town operations, and the senior population is preferable

The base hourly rate of pay is \$26 to \$28. If interested, please submit your resume to Jason Silva, Town Administrator, at jsilva@dunstable-ma.gov by June 7, 2024. The Town of Dunstable is an Equal Opportunity Employer.
