### **AN INTRODUCTION TO THE DUNSTABLE WETLANDS BYLAW [Amended 5-13-2013 ATM Article 32]**

See “Fees and Procedures” at [www.dunstable-ma.gov](http://www.dunstable-ma.gov) for additional information on the Wetland Protection Act: M.G.L. c131 §40 and 310 CMR 10.00

**PURPOSE:** The purpose of the Bylaw is to allow the citizens of the Town through the office of the Dunstable Conservation Commission to have a set of locally enforceable wetlands regulations. They are to complement the wetlands regulations presently in effect under the authority of the Massachusetts Department of Environmental Protection. The DEP regulations are subject to change without regard to the interests and needs of Dunstable, and in some ways do not presently protect local interests. A local bylaw will offer protection against erosion of environmental protection of wetland resources by any changes of the state regulations.

**PRECEDENTS:** Many communities in Massachusetts have such a local bylaw. The legality of such a bylaw has been challenged, and the constitutionality verified by the Massachusetts Supreme Judicial Court.

SIGNIFICANT POINTS: The bylaw has been drafted so that its application will not significantly increase the burden of paperwork beyond what is presently required of individuals by the DEP Wetlands Protection Regulations presently in effect.

This bylaw is permissive in character. Its function is to assure that activities undertaken in or near wetlands will be carried out in such a way as to preserve the wetland resources which are a public trust.

It is to protect developed or undeveloped wetland resources including public water supply, private water supply, groundwater supply, flood control, erosion control, storm damage prevention, water pollution, fisheries, shellfish, wildlife, recreation and aesthetics.

As presently required under the DEP Regulations, the burden of proof as to the acceptability of a proposed activity or development lies with the proponent. It is not to be the role of the Commission to conduct such studies on behalf of an applicant.

The Commission, acting upon a preponderance of credible evidence will be empowered to deny permission for activities on subject lands if in its judgment such denial is necessary to protect the interests of the Bylaw. The Commission may make a request to the Board of Selectmen to instruct Town Counsel to take such legal action as may be necessary to restrain violations and enforce the orders of the Commission. THE TEXT OF THE BYLAW APPEARS ON THE FOLLOWING PAGES.

## **11. SEVERABILITY**

The provisions of this bylaw are hereby declared to be severable. If any provisions, paragraph, sentence, or clause, of this bylaw or the application thereof to any person, establishment, or circumstances shall be held invalid, such invalidity shall not affect the other provisions or application of this bylaw.

**§3.** Nothing in this bylaw shall be construed to preclude the disposition of violations of any such bylaw, rule or regulation by indictment or on complaint brought in the district court, except insofar as the bylaw or the rules or regulations themselves provide for such exclusive enforcement.

**§4.** Wherever a bylaw imposes a duty and affixes a penalty for the neglect or violation of that duty, the appropriate board or officer to the Town, after notice to any person who has neglected or is in violation of such duty, may take any action reasonably necessary to be done to remedy or repair any such omission or the effect of such failure to obey the provisions of the bylaw, rule or regulation, all at the expense of such person. The reasonable cost of such action, not exceeding the penalty allowed by law to be imposed by these bylaws, may be paid out of the Town Treasury and sued for by complaint before a court of competent jurisdiction and the amount recovered shall be paid into the Treasury of the Town. Action under this section shall be in substitution for, and not in addition to, the fine provided for in the above section of these bylaws. - H.** Backflow: The flow of water or other liquids, mixtures or substances into the distribution pipes of a potable water supply from any source other than the intended source.
- I.** Backflow Preventer with Intermediate Atmospheric Vent: A device having two independently operating check valves separated by an intermediate chamber with a means for automatically venting it to the atmosphere, in which the check valves are forced loaded to a normally closed position and the venting means is force loaded to a normally open position.
- J.** Barometric Loop: A loop of pipe rising at least 35 feet, at its topmost point, above the highest fixture it supplies.

- K. Commission: The Town of Dunstable Water Commission or owner or operator of a public water supply system.

- S. Permit: A document issued by the Department which allows a cross connection installation.
- T. Person: Any individual, corporation, company, association, trust, partnership, the Commonwealth, a municipality, district, or other subdivision or instrumentality of the United States, except that nothing herein shall be construed to refer to or to include any American Indian tribe or the United States Secretary of the Interior in his capacity as trustee of Indian lands.
- U. Pressure Vacuum Breaker: An approved backflow prevention device designed to prevent only back siphonage and which is designed for use under static line pressure and which has necessary appurtenances for testing.
- V. Reduced Pressure Backflow Preventer: An approved backflow prevention device incorporating (1) two more check valves, (2) an automatically operating

differential relief valve located between the two checks, (3) two shut-off valves, and (4) necessary appurtenances for testing.

- W.** Residential Dual Check: An assembly of two spring loaded, independently operating check valves without tightly closing shut-off valves and test cocks. Generally employed immediately downstream of the water meter to act as a containment device.
- X.** Reviewing Authority: The Department, its Designee, or the local plumbing inspector, authorized by M.G.L. c. 142 and licensed by the Board of State Examiners of Plumbers and Gas Fitters, whichever is responsible for the review and approval of the installation of an approved backflow prevention device.

### **Section 5. Administration**

- A** The Commission will operate an active cross connection control program, to include the keeping of necessary records, which fulfills the requirements of the State DEP's Cross Connection Regulations and is approved by the Department.
- B** The owner shall allow his property to be inspected for possible cross connections and shall follow the provisions of the Commission's program and the Department regulations.

### **Section 6. Requirements**

#### **A COMMISSION**

1. On new installations, the Commission will provide on-site evaluation and/or inspection of plans in order to determine the type of backflow preventer, if any, that will be required, and notify the owner of plan approval requirements by the appropriate reviewing authority.
2. For premises existing prior to the start of this program, the Commission will perform surveys of the premises and reviews of as-built plans and issue a cross connection violation form to the owner detailing any corrective action required, the method of achieving the correction, and the time allowed for the correction to be made. The time period allowed shall depend upon the degree of hazard involved.
3. The Commission will not allow any cross connection to remain unless it is protected by an approved backflow preventer for which a permit has been issued and which will be regularly tested to insure satisfactory operation.
4. If the Commission determines at any time that a serious threat to the public health exists, the water service will be terminated immediately.
5. The Commission shall have a delegated representative, who is a backflow prevention device tester certified by the Commonwealth of Massachusetts.

6. The Commission will begin initial premise inspections to determine the nature of existing or potential hazards, following the approval of this program by the Department, during the calendar year 2003. Initial focus will be on high hazard industries and commercial premises.

**B. OWNER**

- I. The Owner shall be responsible for the elimination or proper protection of all cross connections on his premises.
2. The Owner shall be responsible for applying for and obtaining all necessary approvals and permits for the maintenance of cross connections and installation of backflow prevention devices.
3. The Owner of facility located within non-delegated public water systems shall be responsible for the payment of all fees for permits.
4. The Owner shall have any device that fails an inspection or test repaired by a licensed plumber.
5. The Owner shall inform the Commission of any proposed or modified cross connection and also any existing cross connections of which the owner is aware but has not been found by the Commission.
6. The Owner shall not install a by-pass around any backflow preventer unless there is a backflow preventer of the same type on the bypass. Owners who cannot shut down operation for testing of the device(s) must supply additional devices necessary to allow testing to take place.
7. The Owner shall install backflow preventers in a manner approved by the Department and by the Commission.
8. The Owner shall install only reduced pressure backflow preventers and double check valve assemblies approved by the Department.
9. Any Owner of industrial, commercial, or institutional premises having a private well or other private water source must have a permit if the well or source is cross connected to the Commission's system. Permission to cross connect may be denied by the Commission. The Owner may be required to install a backflow preventer at the service entrance if a private water source is maintained even if it is not cross connected to the Commission's system.
10. The owner of any residential premises having a private well or other private water source will not be allowed a physical connection with the public water supply system.

11. The Owner shall be responsible for the payment of all device testing, retesting in the case that the device fails to operate correctly, and second re-inspections for non-compliance with commission or Department requirements.

### **Section 7. Degree of Hazard**

The Commission recognizes the threat to the public water system arising from cross connections. As such, the Commission, whereas it is responsible for the quality of the public water supply, may require a containment device on the water service entrance to any customer who, as a result of unprotected cross connections, could contaminate the public water supply system.

### **Section 8. Enforcement**

The Commission shall not allow a cross connection to exist with the public water supply system unless it is considered necessary and all appropriate approvals and permits have been issued.

### **Section 9. Existing In-Use Backflow Prevention Devices**

Any existing backflow preventer shall be allowed by the Commission to continue in service unless the degree of hazard is such as to supersede the effectiveness of the present backflow preventer or result in an unreasonable risk to the public health. Where the degree of hazard has increased, as in the case of a residential installation converting to a business establishment, any existing backflow preventer must be upgraded to a reduced pressure backflow preventer, or a reduced pressure backflow preventer must be installed in the event that no backflow device was present.

### **Section 10. Routine Testing**

- A. The Commission shall determine the responsibility of the required testing program, whether the Owner or the Commission should be responsible for testing the backflow device. Reduced pressure backflow preventers shall be tested and inspected at least semi-annually and double check valve assemblies shall be tested and inspected annually.
- B. Backflow device testing and inspection shall be performed by a DEP certified backflow tester.
- C. The testing shall be conducted during the Commission's regular business hours. Exceptions to this, when at the request of the Owner, may require additional charges to cover the increased costs to the Commission.
- D. Any backflow preventer which fails during a periodic test must be repaired or replaced by a licensed plumber. When repairs are necessary, upon completion of the repair, the device will be retested at the Owner's expense to insure proper operation. High hazard situations will not be allowed to continue unprotected if

the backflow preventer fails the test and cannot be repaired immediately. In other situations, a compliance date of not more than fourteen days after the test date will be established. The Owner is responsible for spare parts, repair tools, or a replacement device. Parallel installation of two devices is an effective means of the Owner insuring that uninterrupted water service remains during testing or repair of devices and is strongly recommended when the owner desires such continuity.

- E** Backflow prevention devices will be tested more frequently than specified above in "A" in cases where there is a history of test failures and the Commission feels that due to the degree of hazard involved, additional testing is warranted. Cost of the additional tests will be born by the Owner.

## **Section 11. RECORDS AND REPORTS**

### **A. RECORDS**

The Commission will initiate and maintain the following:

1. Master files on customer cross connection tests and/or inspections.
2. Master files on approved cross connection installations.
3. Copies of lists and summaries supplied to the Massachusetts Department of Environmental Protection.

### **B. REPORTS**

The Commission will submit the following to the DEP:

1. Initial listing of high hazard cross connections.
2. Initial listing of low hazard cross connections.
3. Annual update lists of Items 1 and 2 above.
4. Annual summary of cross connection inspections and surveys.

## **ADDENDUM**

### **1. RESIDENTIAL DUAL CHECK**

Effective the date of the acceptance of the Cross Connection Control Program for the Town of Dunstable, Massachusetts, all new residential buildings will be required to install a residential dual check device immediately downstream of the water meter. This device will be provided by the Water Commission at a scheduled cost to the homeowner. Installation of this residential dual check device on a retrofit basis on existing service lines will be instituted at a time and at a potential cost to the homeowner as deemed necessary by the Commission.

The Owner must be aware that installation of a residential dual check valve results in a potential closed plumbing system within his residence. As such, provisions may have to be made by the owner to provide for thermal expansion within his closed loop system, i.e., the installation of thermal expansion devices and/or pressure relief valves.

## 2. STRAINERS

The Commission strongly recommends that all new and retrofit installations of reduced pressure backflow preventers and double check valve assemblies include the installation of strainers located immediately upstream of the backflow device. The installation of strainers will preclude the fouling of backflow devices due to both foreseen and unforeseen circumstances occurring to the water supply system such as water main repairs, water main breaks, fires, periodic cleaning and flushing of mains, etc. These occurrences may "stir up" debris within the water main that will cause fouling of backflow devices installed without the benefit of strainers.

## **RIGHT TO FARM BYLAW**

**(HISTORY: Adopted May 8, 2006 ATM Article 17; Approved by Attorney General August 7, 2006; Effective date of Bylaw August 30, 2006)**

- §1. Legislative Purpose and Intent
- §2. Definitions
- §3. Right To Farm Declaration
- §4. Disclosure Notification

This General Bylaw encourages the pursuit of agriculture, promotes agriculture-based economic opportunities, and protects farmlands within the Town of Dunstable by allowing agricultural uses and related activities to function with minimal conflict with abutters and Town agencies. This Bylaw shall apply to all jurisdictional areas within the Town.

### **Section 2. Definitions**

The word "farm" shall include any parcel or contiguous parcels of land, or water bodies used for the primary purpose of commercial agriculture, or accessory thereto.

- on-farm relocation of earth and the clearing of ground for farming operations.

### **Section 3. Right To Farm Declaration**

The Right to Farm is hereby recognized to exist within the Town of Dunstable. The above-described agricultural activities may occur on holidays, weekdays, and weekends by night or day and shall include the attendant incidental noise, odors, dust, and fumes associated with normally accepted agricultural practices. It is hereby determined that whatever impact may be caused to others through the normal practice of agriculture is more than offset by the benefits of farming to the neighborhood, community, and society in general. The benefits and protections of this Bylaw are intended to apply exclusively to those commercial agricultural and farming operations and activities conducted in accordance with generally accepted agricultural practices. Moreover, nothing in this Right To Farm Bylaw shall be deemed as acquiring any interest in land, or as imposing any land use regulation, which is properly the subject of state statute, regulation, or local zoning law.

### **Section 4. Disclosure Notification**

Not later than 21 days after the purchase and sale contract is entered into, or prior to the sale or exchange of real property if no purchase and sale agreement exists, for the purchase or exchange of real property, or prior to the acquisition of a leasehold interest or other possessory interest in real property, located in the Town of Dunstable, the landowner shall present the buyer or occupant with a disclosure notification which states the following:

“It is the policy of this community to conserve, protect and encourage the maintenance and improvement of agricultural land for the production of food, and other agricultural products, and also for its natural and ecological value. This disclosure notification is to inform buyers or occupants that the property they are about to acquire or occupy lies within a town where farming activities occur. Such farming activities may include, but are not limited to, activities that cause noise, dust and odors. Buyers or occupants are also informed that the location of property within the Town may be impacted by commercial agricultural operations including the ability to access water services for such property under certain circumstances.”

A copy of the disclosure notification shall be given on a form prepared by the Town and shall be signed by the landowner prior to the sale, purchase, exchange or occupancy of such real property. A copy of the disclosure notification must be filed with the Board of Selectmen or its designee prior to the sale, purchase, exchange or occupancy of such real property. In addition to the above, a copy of this disclosure notification shall be provided by the Town to landowners each fiscal year by mail.

### **Section 5. Resolution of Disputes**

Any person who seeks to complain about the operation of a farm may, notwithstanding pursuing any other available remedy, file a grievance with the Select Board, the Zoning Enforcement Officer, or the Board of Health, depending upon the nature of the grievance. The filing of the grievance does not suspend the time within which to pursue any other available remedies that the aggrieved may have. The Zoning Enforcement Officer or Select Board may forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the referring Town authority within an agreed upon time frame.

The Board of Health, except in cases of imminent danger or public health risk, may forward a copy of the grievance to the Agricultural Commission or its agent, which shall review and facilitate the resolution of the grievance, and report its recommendations to the Board of Health within an agreed upon time frame.

### **Section 6. Severability Clause**

6.5.3.3 Disapprove the application and deny a permit if it finds (a) that the proposed stormwater controls fail to meet the objectives and requirements of this Bylaw or the Regulations, or (b) that the

information submitted with the application was insufficient to allow one of the determinations set forth Section 6.5.3.1 or Section 6.5.3.2.

6.5.4 The Planning Board or its Designated Agent shall take final action on an application within sixty (60) days of date the application was filed with the Town. A copy of the final action shall be filed with the Town Clerk. Certification by the Town Clerk that the allowed time has passed without final action being taken shall be deemed a grant of the Land Disturbance Permit.

6.6 The filing of an application for a Land Disturbance Permit required under this Bylaw shall constitute a grant of permission to the Planning Board and/or its Designated Agent to enter the site in order to verify the information in the application and to inspect for compliance with permit conditions.

6.7 Appeals: A decision on an application for a Land Disturbance Permit by the Planning Board shall be final. Further relief from a decision by the Planning Board made under this Bylaw shall be reviewable in the Superior Court pursuant to M.G.L. c. 249, § 4. The remedies listed in this Bylaw are not exclusive of any other remedies available under any applicable federal, state or local law.

7.3 Obstruction – Storm Drainage Systems: No person shall obstruct or interfere with the normal flow of stormwater in or out of the Municipal Storm Drain System without prior written approval from the Planning Board or its Designated Agent.

## **8. PERMIT PROCEDURES**

Permit procedures and requirements, including permit submittals, right-of-entry, fee schedule (including requirements to post acceptable security), fine schedule, and public hearing process, shall be defined and included as part of the Regulations.

## **9. FEES**

The Planning Board shall establish fees to cover expenses connected with application review and monitoring permit compliance. The fees shall be sufficient to cover Town secretarial staff and professional staff. The Planning Board is also authorized to retain and charge the Applicant fees to cover the cost for a Massachusetts licensed Professional Engineer or other professional consultant to advise the Planning Board or its Designated Agent on any or all aspect of the project. The Applicant for a Land Disturbance Permit may be required to establish and maintain an escrow account to cover the costs of said consultants. Applicants must pay review fees to the Town before the review process may begin.

## **10. SURETY**

The Planning Board or its Designated Agent may require the Permittee to post before the start of land disturbance activity, a surety bond, irrevocable letter of credit, cash, or other acceptable security. The form of the bond shall be approved by Town Counsel, and be in an amount deemed sufficient to ensure that the work will be completed in accordance with the permit. If the project is phased, the Planning Board or its Designated Agent may release part of the bond as each phase is completed in compliance with the permit but the bond may not be fully released until the Planning Board or its Designated Agent has received the final report as required in the Regulations and issued a Certificate of Completion.

## **11. PERFORMANCE STANDARDS**

Criteria for erosions and sediment control and post-construction stormwater management, including stormwater performance standards, shall be defined and included as part of Regulations.

## **12. INSPECTIONS**

12.1 The Board shall inspect the project site at the following stages:  
(A) Initial Site Inspection: prior to approval of any plan.

(B) Erosion Control Inspection: to ensure erosion control practices are in accord with the filed plan.

(C) Bury Inspection: prior to backfilling of any underground drainage or stormwater conveyance structures.

(D) Final Inspection. After the stormwater management system has been constructed and before the surety has been released, the applicant must submit a record plan detailing the actual stormwater management system as installed. The Board shall inspect the system to confirm its "as-built" features. This inspector shall also evaluate the effectiveness of the system in an actual storm. If the inspector finds the system to be adequate, he or she shall so report to the Board which will issue a Certificate of Completion.

12.2 If the system is found to be inadequate by virtue of physical evidence of operational failure, even though it was built as called for in the Stormwater Management Plan, it shall be corrected by the permittee before the performance guarantee is released. If the permittee fails to act the Town may use the surety bond to complete the work. Examples of inadequacy shall be limited to: errors in the infiltrative capability, errors in the maximum groundwater elevation, failure to properly define or construct flow paths, or erosive discharges from basins.

### **13. ENFORCEMENT**

13.1 The Planning Board or its Designated Agent shall enforce this Bylaw, its Regulations, orders, violation notices, and enforcement orders, and may pursue all civil and criminal remedies for such violations including injunctive relief and monetary damages and costs of litigation and attorney fees for such violations and for abatement and mitigation and compliance actions.

13.2 The Planning Board or its Designated Agent may issue a written order to enforce the provisions of this Bylaw or the Regulations thereunder, which may include:

- (A) A requirement to cease and desist from the land-disturbing activity until there is compliance with this Bylaw or provisions of the land-disturbance permit;
- (B) Maintenance, installation or performance of additional erosion and sediment control measures;
- (C) Monitoring, analyses, and reporting;
- (D) Remediation of erosion and sedimentation resulting directly or indirectly from the land-disturbing activity; and
- (E) Compliance with the Operation and Maintenance Plan.

13.3 If the enforcing person determines that abatement or remediation of erosion and sedimentation is required, the order shall set forth a deadline by which such abatement or remediation must be completed. Said order shall further advise that, should the violator or property owner fail to abate or perform remediation within the specified deadline, the Town of Dunstable may, at its option, undertake such work, and the property owner shall reimburse the Town's expenses.

13.4 Within thirty (30) days after completing all measures necessary to abate the violation or to perform remediation, the violator (if different than the property owner) and the property owner shall be notified of the costs incurred by the Town of Dunstable, including administrative costs. The violator or property owner may file a written protest objecting to the amount or basis of costs with the Planning Board within thirty (30) days of receipt of the notification of the costs incurred. If the amount due is not received by the expiration of the time in which to file a protest or within thirty (30) days following a decision of the Planning Board affirming or reducing the costs, or from a final decision of a court of competent jurisdiction, the costs shall begin to accrue interest at the rate provided in M.G.L. 59, § 57, after the thirty-first day following the day on which the costs were due. Said costs and interest may be secured through a municipal charges lien on the property, pursuant to M.G.L. c. 40, § 58.

13.5 Criminal Penalty. Any person who violates any provision of this Bylaw, Regulation, order or permit issued there under, shall be punished by a fine of not more than \$300.00. Each day or part thereof that such violation occurs or continues shall constitute a separate offense.

13.6 Non-Criminal Disposition. As an alternative to criminal prosecution or civil action, the Town of Dunstable may elect to utilize the non-criminal disposition procedure set forth in G.L. Ch. 40, §21D, which has been adopted by the Town in the Town of Dunstable Non-Criminal Disposition Bylaw, in which case the Planning Board or its Designated Agent shall be the enforcing person. The penalty for each violation shall be \$300.00. Each day or part thereof that such violation occurs or continues shall constitute a separate offense.

## **14. WAIVERS**

14.1 The Planning Board may grant a waiver from the provisions of this Bylaw at its discretion and after due consideration and consultation with

the Board of Selectmen, Conservation Commission, Board of Health, Road Commissioners and Town Engineer where it makes a written finding that such action is:

- (A) Allowed by federal, state and local statutes and/or regulations;
- (B) In the public interest; and
- (C) Consistent with the purpose and intent of this Bylaw.

14.2 Any applicant may submit a written request to be granted such a waiver. Such a request shall be accompanied by an explanation or documentation supporting the waiver request and demonstrating that strict application of the Bylaw does not further the purposes or objectives of this Bylaw.

14.3 All waiver requests shall be discussed and voted on at the public hearing for the project.

14.4 If in the Board's opinion, additional time or information is required for review of a waiver request, the Board may continue a hearing to a date certain announced at the meeting. In the event the applicant objects to a continuance, or fails to provide requested information, the waiver request shall be denied.

14.5 No waiver shall be granted unless the Applicant demonstrates that the enforcement of this Bylaw would be manifestly unjust and the Applicant has established that a level of protection for public health, safety, welfare or the environment at least equivalent to that provided under this Bylaw can be achieved without strict application of this Bylaw and/or the Regulations.

## **15. SEVERABILITY**

If any provision, paragraph, sentence, or clause of this Bylaw shall be held invalid for any reason, all other provisions shall continue in full force and effect.

**Section 11. Inconsistencies**

All provisions of this Bylaw, insofar as possible, shall be read and construed to be consistent with other existing bylaws or Rules and Regulations of the Town. Insofar as there are or appear to be inconsistencies in such regard, the provisions of such other existing Bylaws or Rules and Regulations shall be deemed insofar as permissible by law to be inapplicable, but only to the extent that they bear directly upon permits issued therefore pursuant to this Bylaw.

1. By amending Section 5 of the Non-Criminal Disposition Bylaw, by replacing the phrase "Street Excavation Bylaw" with the phrase "Streets and Ways Bylaw";
